Smart Choice - Your Advantage

All-in-One Educational ERP you have been looking for...

Our Unique Features	PRAM Edu - ERP Software & Mobile App	Traditional ERPs
Global Educational ERP Operations & Management Software **Universal Mobile App**	Unified educational platform for academics, operations, communication, teachers, student & parents services with real time sync technology between Educational ERP Operations & Management Software and Mobile App	Often built for isolated academic tasks; lacks service integration & no sync between systems & services
Recognitions	Recognized by DPIIT, Govt. of India and D-U-N-S, making it credible and trustworthy	Most are unrecognized
Engagement Models including Lifetime-Free Access to complete ERP Software	Multiple business models, including a **unique Lifetime-Free Access** to complete **ERP Software** ideal for rural and budget-constrained institutions	Traditional annual or subscription-based ERP models often place a heavy financial burden on educational institutions—costs that are ultimately passed on to parents and students.
Best-in-class Data Security & OTP Access	Access to ERP & mobile app protected by OTP-based login, with strong user-level privilege	Basic password login OTP & layered access often missing

	management	
SoS Safety built-in for Students & Faculty	Built-in real-time SOS safety feature, designed to protect students and teachers during emergencies.	Lack of critical safety features for students & faculty. This compromises real-time response in emergency situations
Multi-Branch Management + Access Control	Manage multiple branches from a single login; assign user privileges per branch easily	Complex setup or no multi-branch capability + Additional License Expense
Access to Full Module Package with Real Time Sync Technology	• CRM • Inquiry Management • Admission Management • Institute Operations & Management • Fees Management • Attendance & Leave Management • Concern Management • Inventory Management • Library Management • Hostel Management • Vehicle Management & so much more...	Often modules are built in isolation and do not interface with each other; lacks service integration & no sync between modules & their services
Full Data Portability (Self-Serve)	Institutes can download all their data anytime directly from ERP — no dependency on PRAM Edu	Requires requests or vendor support; may involve delays
Data Ownership, Security & Transparency	Our educational ERP software ensures complete data transparency and portability to educational institutions. They can download their entire data at any time — directly from our educational ERP software — to any local or cloud storage of their choice.	Missing Data Ownership, Security & Transparency
3-Minute Institute Onboarding	Yes! Ultra-fast digital setup	Usually requires days to activate ERP then setups for all stakeholders
Incentives to Educational Institutes	Institutes that choose **Lifetime-Free access** can earn **monetary incentives** from the revenue generated through optional premium services chosen by students and parents.	No such incentive-sharing model exists
Extremely Easy to Use	Intuitive interface; onboarding in minutes; no tech expertise required	Often complex, training-dependent onboarding
Real-time Sync: ERP + Mobile App (Teachers, Parents, Students)	Seamless live sync of assignments, attendance, updates & communication	Partial or delayed sync in most systems
Multilingual Support	Supports multiple international languages for diverse users	Mostly English only or limited local language support
Inquiry (CRM) + Library + Facility + Hostel + Transport Management Modules	Available as default module	Additional purchase required
Mobile-first Ecosystem with Web ERP	Fully functional apps for all stakeholders	Some offer mobile app many are web-only
Role-Based Mobile App with Real-Time Integration	PRAM Edu Mobile App offers a powerful, role-based mobile application with real-time synchronization, allowing seamless access for students, parents, teachers, recruiters, and service providers — all from a single login. Users can switch roles in Mobile App effortlessly, ensuring a connected, personalized experience for every stakeholder in the education ecosystem.	No Role-Based Mobile App No Real-Time Integration

AI-Powered Career Counseling	Our Mobile App includes an AI built-in guidance system that helps students and parents explore career paths based on the student's interests, academic performance, and potential — offering personalized insights and support for informed decision-making.	Additional purchase required
Integrated Learning Management System (LMS)	Our Mobile App comes with a fully integrated LMS that enables institutions to manage learning content, assign online tasks, track student progress, and deliver a seamless academic experience—all within the same platform.	Additional purchase required
Online Class Scheduling & Content Sharing	Our Mobile App allows educators to schedule online classes and effortlessly share curated educational videos.	Additional purchase required
Training Videos & User Onboarding Support	Our Product offers comprehensive training tutorials and step-by-step onboarding walkthroughs built directly into the platform, enabling users to quickly understand and use the system without external help or technical expertise.	Traditional ERPs lack built-in support resources, such as training tutorials or usage walkthroughs
Digital ID Cards	Yes! For all students and faculty	Additional purchase required
24x7 Customer Support	We provide round-the-clock, real-time customer support, ensuring that institutions receive immediate assistance whenever needed—eliminating delays and keeping daily operations running smoothly without disruption.	Most vendors provide limited or delayed support, often through ticket-based systems with long response times.

Get your ERP up and running in **3 minutes!**

3-Easy-Steps to Digital Transformation
